

Premier Power-Ups: Online Training

Your Goal

Faster ROI through enhanced knowledge of Kony platform capabilities

Description

Online training lets the student go through at their own pace and experiment along the way. Just like the classroom, there are dedicated exercises, but with online training the student has the ability to stop at any time and try things out that are of interest. Conversely if something is not relevant then that topic can be skipped.

What It Does For You

- Provides Kony training with online flexibility
- Speeds up design, development, and implementation time (leading to a faster ROI)

Requirements

- Familiarity with today's mobile devices, web technologies, and web development
- Thirst for knowledge

How It Powers Up Your Implementation

Discovery

- A trained employee will provide better input and feedback during planning

Engagement

- Trained developers will create apps that not only get the job done, but also delight users
- Less time requesting support and dealing with tickets

Outcomes

- Faster time to value with less risk and more success through knowledgeable Kony resources
